

MORE POWER

5-in-1 CHARGING HOLSTERS

Get 3X run time with 5-in-1 charging holsters

GTS holsters provide multiple power configurations to keep your devices charged while on the go – allowing your team to get the job done without interruption.

Vehicle Charger

Light-weight, versatile and portable design for in-vehicle use. Optional mounting brackets for side or bottom mounts.

Spare Battery

Continuously charges the device's internal battery while the device is in use.

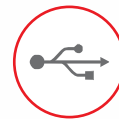

Desktop Charger

Integrated LiP battery provides additional 4,000 mAh capacity, eliminating the need for separate desktop charger.

Holster

Rigid holster with adjustable belt clips provides reinforced strength and durability.

USB Connectivity

Transfer your data with a USB cable. Unique holster available with built in USB connector.

Configured to fit your needs

Tailor your holsters to your operations with accessories for any situation. Available options include: Belt Clip, Belt Loop, DC Adapter, and RAM mounting system.

Compatible Models

- Motorola MC55 and MC65/67
- Motorola MC70 and MC75
- Intermec CN50 and CN51

Ram Mounting System adapter contains sturdy suction cup to fit safely and securely on dashboards or car windshields. (available separately)

Belt clip (UBC) and Belt loop (UBL) options to provide flexibility and to sit comfortably on any style belt.

Ergonomic design provides comfortable grip for usage.

Contains internal **GTS NEOCELL** Li-P cells to charge device and run up to 3x longer.
